

CONDON CONCRETE WORKS LTD
18

EN1917:2002

Precast Base component for use in a manhole.

Unreinforced and Reinforced concrete chamber base unit.

Watertightness: No leakage of joint or unit at 40 kPa internally.

Mechanical resistance: Strength Class:

Nominal Size DN	Single Strength Class
1200	40 MPa
1350(R)	40 MPa
1500(R)	40 MPa

Durability: Adequate for normal serviceability conditions
