

CONDRON CONCRETE WORKS LTD  
26

**EN1917:2002**  
**N.B. 305/2011**

**Precast Base component for use in a manhole.**

**Unreinforced and Reinforced concrete chamber base unit.**

**Watertightness: No leakage of joint or unit at 50 kPa internally.**

**Mechanical resistance: Strength Class:**

| <b>Nominal Size<br/>DN</b> | <b>Single Strength Class</b> |
|----------------------------|------------------------------|
| <b>1200( R)</b>            | <b>40 MPa</b>                |
| <b>1350( R)</b>            | <b>40 MPa</b>                |
| <b>1500( R)</b>            | <b>40 MPa</b>                |
| <b>1800( R)</b>            | <b>40 MPa</b>                |
| <b>2100( R)</b>            | <b>40 MPa</b>                |

**Durability: Adequate for normal serviceability conditions**
