

CONDON CONCRETE WORKS LTD

26

EN1917:2002

N.B. 305/2011

Precast component for use in a Manhole/ Inspection Chambers.

Reinforced concrete cover slab, corbel slab/adjusting unit

Watertightness:

No leakage of joint at 50 kPa internally for Manholes.

No leakage of joint at 30 kPa internally for Inspection Chambers .

Mechanical resistance:

Vertical strength min120 kN. Proof Load,300 Kn Ultimate Load

Opening size:

600mmx600mm/750mmx750mm/1200mmx675mm/1200X600/900X900mm

600mm dia /700mm dia/800mm dia/900mm dia/

Durability:

Adequate for normal serviceability conditions
